

Figure 1 displays six histograms arranged in a 2x3 grid, showing the density of three traits (trait\_1, trait\_2, and trait\_3) for two groups: 'no' (top row) and 'yes' (bottom row). The y-axis for all plots is 'Density'. The x-axis for the top row is labeled with trait\_1, trait\_2, and trait\_3, with tick marks at 6.56, 9.62, and 12.68. The x-axis for the bottom row is labeled with trait\_1, trait\_2, and trait\_3, with tick marks at 6.44, 9.61, and 12.77. Vertical dashed lines indicate the mean and standard deviation for each trait in each group.
